PROFESSIONAL EXPERIENCE

Makers' Den

Full Stack Developer

Berlin, Germany (Remote)

October 2022 – Present

- Adapted a versatile skill set in the fast-paced world of bleeding-edge JavaScript technologies like TypeScript, React.js, NextJS, Node.js and more.
- Maintained and developed various projects with beautiful UI and easy-to-follow UX
- Increased company productivity by designing and constructing a range of in-house tools, utilizing large language AI models, and harnessing the power of GCP and AWS
- Analyzed and optimized JavaScript bundles and search engines (SEO)

Wecamo.io

Junior Frontend Developer

Dąbrowa Górnicza, Poland (Remote)

May 2022 – September 2022

- Developed, tested and deployed features that were part of a larger system leveraging TypeScript, React.js, Cypress and GitLab.
- Utilized knowledge of accessible technologies (A11y) in creating components
- Collaborated on the development of a complex graphics editor that improved my problem-solving

EDUCATION

De Montfort University

Software Engineering (BSc)

Leicester, United Kingdom

- Graduated with First Class Honors
- Studied and examined the concepts, principles, and implementations of various data structures and algorithms
- Coordinated a team of students during the development of a full-stack application using C#
- Planned, designed and developed a scalable full-stack shopping application - Impreda

PROJECT EXPERIENCE

[Impreda - fashion shopping app](#)

Final Degree Project

Mark: First degree

- A fully functional full-stack application engineered as a part of a final degree project
- Leveraged knowledge of design patterns and JavaScript technologies such as React.js, NextJS, tRPC
- The project is scalable due to the usage of cloud services like Vercel, AWS and PlanetScale

TECHNICAL SKILLS

- JavaScript & TypeScript
- React.js
- Node.js
- A11y
- Database Management (MongoDB, PostgreSQL)
- Experience with front-end frameworks
- Experience with data structures and algorithms
- Full-stack development
- Git and Github Actions (CI/CD)
- Cloud Services (AWS, GCP)

LANGUAGES

- Polish (Native)
- English (Full Professional Proficiency)

All my projects are available on [GitHub](#)
